Give your business a head start!

You want to dematerialize procedures and boost the performance of your company:

- Fluidify the flow of internal information and create a team spirit
- Optimize your customer relationship and improve your company image
- Strengthen the abilities and skills of your teams
- Keep and secure your documentary heritage
- Keep abreast of socio-economic news

The **ProStation** is a multifunctional box that offers you 5 cutting-edge software for efficient management of your business

- 1. **ProTeam** to put Internal Communication at the service of your organizational development
- 2. **ProMark** to give a new face to your External Communication and your Customer Relationship Management
- 3. **ProTraining** to put e-Learning at the service of performance by optimizing your training budget
- 4. **ProGed** to lighten and secure your documentary heritage thanks to Electronic Document Management
- 5. **ProPresse** to get the first scoop of useful socio-economic information from the national daily press

With its easy-to-use, convenient and accessible interfaces that make it easy to get started quickly, ProStation helps you develop a culture of exchange that is essential for working in today's open, cross-functional businesses.

BENEFITS

ProStation is SIMPLE: its daily use requires no training and allows a quick start, regardless of the level of computer expertise users.

ProStation is PRACTICAL: because every operation is done with a simple click of the mouse, which saves you a lot of time.

ProStation is EFFECTIVE: it allows users to focus on their business and produce results.

With ProStation, data and documents are SECURED, stored in a centralized and unique server, accessible from any place and at any time by authorized persons.

Try PROSTATION and take control with a box that changes the life of your business.
